

STUDENT SEMINAR

ON

CLIMATE CHANGE AND ITS IMPACTS: ROLE OF HUMAN BEING

Organised by: Department of Geography, Hazi A.K. Khan College Under the Guidance of IQAC

DATE: 22.09.2022

TIME: 11.30 A.M

VENUE: SMART CLASS ROOM 1, HAZI A.K. KHAN COLLEGE

OBJECTIVES: The main objectives of the seminar are to –

- To increase awareness among participants about the causes and consequences of climate change.
- To provide a comprehensive understanding of the science behind climate change.
- To emphasize the significant contribution of human activities to greenhouse gas emissions and global warming.
- To explore the tangible and potential impacts of climate change on various aspects of human life
- To discuss adaptation measures to cope with the existing and anticipated effects of climate change.
- To encourage participants to adopt sustainable practices that reduce their carbon footprint and contribute to climate resilience.

REPORT

A one-day student seminar on “CLIMATE CHANGE AND ITS IMPACTS: ROLE OF HUMAN BEING” was organised by department of Geography on 22.09.2022 at Smart Class Room 1, Hazi A.K. Khan College. The seminar was chaired by Bubai Ghosh, Faculty of Department of Geography, Hazi A. K. Khan College.

The seminar started with the welcome address by Sri Prottyus Kumar Ghosh, HOD, Department of Geography at 11.30 A.M. The chairperson delivered the inaugural speech of the seminar.

After the inaugural speech the seminar there was a presentation session where students presented their papers related to the subject. The presentation by students served as a catalyst for informed discussions and collective action to address the global challenge of climate change.

The seminar concluded with a warm vote of thanks by Sri Parimal Karmakar, Faculty, Department of Geography. It achieved its objectives of raising awareness, educating

participants, highlighting human contributions, and promoting strategies for mitigation and adaptation. Moreover, it inspired participants to advocate for climate action and created a network for continued collaboration.

Outcomes of the Seminar:

- Increased awareness among participants about the causes and consequences of climate change.
- Enhanced knowledge about the significant role of human activities in driving climate change.
- Promotes interdisciplinary discussions, helping participants understand the multi-faceted nature of climate change and its solutions.
- Encourage participants to make personal changes in their daily lives, such as reducing carbon footprints, conserving energy, and supporting eco-friendly products.

SWOC ANALYSIS

Strengths:

- ✓ Students are passionate and concerned about climate change, making them highly engaged participants.
- ✓ Youth engagement can inspire broader community involvement and long-term commitment to climate action.
- ✓ The seminar can serve as a valuable educational resource, providing comprehensive information on climate change and its impacts.
- ✓ Encourages collaboration among students, fostering teamwork and shared responsibility for addressing climate change.

Weaknesses:

- ✓ Limited resources can affect the scope and scale of the event.
- ✓ Maintaining participant engagement throughout the seminar, especially during lengthy presentations or discussions, can be challenging.

Opportunities:

- ✓ The seminar provides an excellent opportunity to educate the future generation about the urgency and significance of climate change.
- ✓ Equipped with knowledge, participants can become informed advocates and agents of change in their communities.

Challenges:

- ✓ Organizing speakers, securing a suitable venue, promoting the event, and coordinating various logistical aspects can be challenging and time-consuming.
- ✓ Ensuring that attendees follow up with meaningful actions after the seminar can be a challenge.

In conclusion, the student seminar on "Climate Change and Its Impacts: Role of Human Beings" holds significant potential for educating, motivating, and empowering students to address climate change. While it faces resource limitations and engagement challenges, careful planning and a commitment to sustainability can help overcome these obstacles. The seminar offers a unique opportunity to inspire positive change and equip future leaders with the knowledge and tools needed to combat climate change effectively.

About the College

The generous Hazi Abdul Kader Khan who dreamed of a college at Hariharpara, a remote village in the district of Murshidabad, donated a precious piece of land on which Hazi A. K. Khan College was established. The college began its auspicious journey on 8th September, 2008. Affiliated to the University of Kalyani, Hazi A. K. Khan College aspires to function as a centre for higher studies.

About the Seminar

The impacts of climate change include warming temperatures, changes in precipitation, increases in the frequency or intensity of some extreme weather events, and rising sea levels. These impacts threaten our health by affecting the food we eat, the water we drink, the air we breathe, and the weather we experience. The main objective of this seminar is to present the climate change due to human activities, analyze the relationship between greenhouse gas emission and climate change, establish the linkages between radiative forcing and human induced climate change and suggest some mitigation and adaptation measures to overcome the effects of climate change.
