Epistemological View in Western Concept

Date: 05.04.2023

Venue: Smart Classroom 2, Hazi A.K. Khan College

Organised by: Department of Philosophy under the instruction of IQAC

Objectives: The seminar on "Epistemological View in Western Concept" focuses on western perspectives on Epistemology. Epistemology is the study of knowledge. The objective of the seminar is to study the three epistemological factors that contribute to knowledge acquisition like truth, belief and justification. Western epistemologists have commonly defined knowledge in terms of justified true belief, and commonly construed epistemology as being concerned with evaluating the epistemic credentials of belief. The seminar will explore and analyze the foundational principles, historical development, and contemporary perspectives within Western epistemology, fostering a deeper understanding of how knowledge is acquired, justified, and challenged in Western philosophical traditions.

ABOUT THE COLLEGE

Hazi A. K. Khan College is the lone representative institution of Higher Education at Hariharpara Block. The Block was endowed with a considerable number of Primary, Secondary and Higher Secondary Institutions. But no institution was there to cater further education for the young aspirant stakeholders; predominantly the girls. The idea was initially conceived by honourable Hazi Abdul Kader Khan who donated land to set up a college. Afterwards, some local robust persons took timely initiatives in framing required Society Registration and completed other formalities with the Government. The long-cherished dream came true in 2008, when Hazi A. K. Khan College started its journey at Hariharpara High School getting affiliation from University of Kalyani with Honours and General Courses in some traditional disciplines in Arts. Very soon the institution was shifted to the present location. At present twelve academic departments in Arts are there, out of which seven have Honours Courses.

ABOUT THE SEMINAR

Epistemology is the study of knowledge. Three epistemological factors that contribute to knowledge acquisition are truth, belief and justification. Western epistemologists have commonly defined knowledge in terms of justified true belief, and commonly construed epistemology as being concerned with evaluating the epistemic credentials of belief. The western view on knowledge has centered round where knowledge is given or acquired.
