Report: A state level seminar titled ‘A Short Introduction to Kant's Critique of Pure Reason’ was arranged by Department of Philosophy in Collaboration with IQAC, Hazi A. K. Khan College on 15.09.2022. Sri Pranab Ghosh, Assistant Professor, Jatindra Rajendra Mahavidyalaya, Amtala, Murshidabad was invited as resource person. Welcome notes was delivered by Dr. Goutam Kumar Ghosh, Principal, Hazi A. K. Khan College.

Mr. Pranab Ghosh talked about pure reason in details. Kant's motivation in writing the "Critique of Pure Reason" was nothing short of revolutionary. In an era dominated by the rationalism of thinkers like Descartes and Leibniz, as well as the empiricism of luminaries such as Hume, Kant sought to reconcile these seemingly irreconcilable perspectives. His aim was to establish the limits and possibilities of human knowledge, ushering in what he famously referred to as the "Copernican Revolution."

Immanuel Kant's *Critique of Pure Reason* attempts to change the study of metaphysics and philosophy by altering how philosophers view the world. According to him, there is nothing higher than reason. It is the reason that drives actions without any sense-dependent incentives. Immanuel Kant's three critiques the *Critique of Pure Reason*, the *Critique of Practical Reason* and the *Critique of Judgment* are among the pinnacles of Western Philosophy. Kant aimed to steer philosophy into becoming something that could be more practical and beneficial to humanity. In this seminar, three points are crucial - the relation of reason to empirical truth; its role in scientific enquiry; and the positive gains that come from appreciating reason's limits.
